

We are

We are a young, dynamic and international patent law firm, which specialises in consulting and representing clients in the high-tech sector worldwide. With our international team and our offices in Munich and Washington, D.C., we are able to offer our clients protection of industrial property in Europe as well as in the U.S., always focusing on a high level of quality and service.

We are looking for

We are looking for a

European Patent Attorney (f/m/d)

to provide remote support for our international law firm.

As a patent attorney your work will be focused on the preparation of patent applications for filing with the EPO, GPTO and USPTO, and the prosecution of them to a successful grant with the offices mentioned above. The technical focus of our patent law firm is on the areas of computer-implemented inventions, artificial intelligence, and medical technology.

We offer

- work remote from anywhere in Europe
- flexible working hours
- attractive performance-based salary
- an interesting client portfolio
- efficient working environment with full support from our professional back office
- a young, open-minded and international team

Requirements

- admission as a European patent attorney
- a degree in physics or engineering
- a desire for new challenges and new subjects
- independent and responsible work ethic
- diligence, reliability and a sense of responsibility
- excellent English skills, both in writing and speaking
- basic German skills or the motivation to acquire them
- interest in a long-term cooperation

Application

You are also very welcome to apply if you are at the end of your initial training period to become a European Patent Attorney. We are looking forward to receiving your application, which should include a brief and well-structured CV as well as a brief summary of why you are motivated to join our team. Please apply via e-mail only, to bewerbung@tautz-ip.com.
